THE PACIFIC NORTHWEST.

A Marvelous Opening Up of Industries

and Settlements in the Pacific Northwest.

Railways—A Country Rich in Agriculture,

Timber, Minerals, Stock, and

Water-Power—Unsurpassed Climate and

Wonderful Scenery.

PORTLAND, Oregon, Aug. 22, 1888.—In the

mind of the observer who takes but hasty

glances from the car window in hastening

through the Puget Sound, the impression

created may not be so encouraging as it

appears, but the man who comes and looks for

facts will be favored by a constant succession

of surprises. Its agricultural resources,

its mineral wealth, its timber, its manu-

facturing possibilities, through the close

association of water-power and raw materi-

als, its climate, and its full share of those

superb creations of nature which distinguish

our country from all others, convey to the

intelligent traveler the most gratifying

thoughts, assuring him of its future pro-

gress and prosperity.

WHERE IS OREGON?

It is the State and the Pacific Northwest,

and has the coast of its western boundary.

It is bounded on the north by Washington

and on the east by Idaho and Nevada. It has

an area of 36,000 square miles, or over sixty

million acres, larger than Old England, New

England combined, and is capable of

supporting ten persons where it now has

one. If you have never been there, admit

that you know nothing of it, but that

Oregon has not only a variety of material

resources, but there is a difference in the

climate, and the rest of the State, the

Mountains. On the coast, there are four

seasons, but two only are conspicuous—the

winter, while in the desert, there is a

range of temperature, the winter, however, rarely

having more than a few weeks of months of

snow, with much rain and more equi-

table in the States east. The rainy season

on the coast is in the winter, and the idea is

conveyed that the rainfall is excessive, but

wrong, because the Signal Service shows

every South Atlantic and Gulf State to have

from five to six inches more of rain than

Oregon, though the annual average is fifteen

to twenty inches in excess of the States of

the Upper Mississippi Valley. In the

Southern States, the rainfall is not so

uniform, but the average is not so great as

the showers are lighter, come oftener, and

never with driving wind, and without the

chilling dampness which the rainy seasons

on the Atlantic coast. The snowfall in

Portland is light, seldom enough for sleigh-

ing, and the snow on the mountains is not

so deep as in the States to the east, nor the

latitude of Southern California, and no night

was ever so mild and often, that it is

precipitated in the form of rain. The

reasons for this are, first, the influence of

the Pacific Ocean, which sweeps toward

the coast, and second, the fact that the

Gulf Stream does the British Isles. The

potency of the Japan current is seen when

we compare the climate of the Pacific with

that of the Atlantic. The current in the

Bering Sea, the source of the "Chinook

winds," which pass behind the mountains

and descend to the coast, is a warm

current, and the winds which blow from

the west, through the mountains, are

the whole winter through, and flowers bloom

in the open air long after the first of

November. The climate is not so uniform

as in the States to the east, but the

climate is not so uniform as in the States

to the east, but the climate is not so

Republican County Convention.

The Republicans of Crawford County, Michigan, met in convention, Tuesday, September 18, at 2 o'clock P. M., for the purpose of nominating county officers to be supported at the ensuing election and for the transaction of such other business as may properly come before the convention. The several townships will be represented by delegates as follows: Ball 1, Beaver Creek 3, Blaine 2, Center Plains 3, Fredonia 4, Grayling 11, Grove 3, Maple Forest 2 and South Branch 2.

O. PALMER,
Secretary.

W. A. MASTERS, CH. CLERK, COM.

Black wool was found in the Sam, and white wool should be found in the Sam. Brother John, Sam and Sam, Reuben from slavery!

The newspapers report over \$1500.00 taken by pickpockets during the Thurman fiasco at Port Huron, last week. From that we should judge that some of the democrats were there for other purposes than listening to the "Old Roman."

An entire democratic club of Cleveland, Ohio, composed of Hebrews, has changed sides and now supports Harrison and Morton. The Cleveland Leader publishes the names of the entire club. There is the same kind of a stampede among all classes in the Northern states.

The stumpers of the democracy this year seem to be believers in spirits. At the reunion at Cheboygan, a man who claimed to be an old soldier, persisted in making Cleveland speeches. He was put outside of camp three different times. He was drunk all the time and it is said to be the proprietor of a crib (not a corn crib) near Indian River.

The Delinquent

For September has been received, and will be highly appreciated by the ladies, as several new styles are given in this number. The magazine opens with an article on Current Fashions which will be considered very interesting by its many readers. The styles for Ladies', Misses' and Children are indicative of the approach of Fall and Winter, as they are intended principally for heavy goods. More space is devoted to descriptions of styles and material for children's clothing, in this number than in generally given, but the publishers have found room for articles on article needlework, "Dress Material," "Fashionable Trimmings," "Seasonable Millinery," "Social Life," and "Through the House," which are well worth the subscription price of \$1.00 per year, published by the Butterick Publishing Co., New York City and subscriptions will be received at this office.

For State Senator.

Senator Westgate having removed from the district, the question of his re-nomination cannot be brought up in convention, if it otherwise would have been considered, but we believe Cheboygan county will this year present a candidate for the position who will honor them and the party, and whose nomination we believe to be equivalent to election.

Hon. Oscar Adams, of that city, is a gentleman of whom any community may well be proud. A man of liberal education, broad views and large experience. He stands in the front rank of the bar of Michigan, has served two years in the legislature, and has a record without a blemish. He would at once take an advanced position in the Senate from his acknowledged ability.

He is an old soldier and has ever been true to republican principles and the laboring men who know him best are the first to do him honor.

The AVANTAGE votes for the nomination of Hon. Oscar Adams for State Senator.

South Grove Items.

Miss Cassie and Rosa Bates and Miss Francis of Grayling, are visiting friends in Grove, South Branch and Center Plains townships.

The fall term in Doctor Russell's district, is taught by a Miss Bolster, of Roseconon.

Haying seems to be the order of the day with the farmers in these parts. They have all worked at home this summer, and the crops show good results. They will generally reside on their farms this winter, and not move to town as formerly as they will have plenty to winter them through. It seems as if good times were coming in spite of the dry weather in early summer.

We expect to have a fall term of school in district No. 3, Grove township, to commence Sept. 3d, with Mr. Edgar Carroll as teacher.

Messrs. F. Johnson and Geo. Kneth are getting along finely with their road job.

Mr. Joseph Sewell and Eddie Smith well have seemingly recovered from their sickness.

Mrs. Dr. Thayer, of Indiana, has been visiting at her farm in South Branch, where they are making large improvements. It is rumored that they intend to make it their home in the near future.

Our farmers are all feeling good over their prospects and are not afflicted with the blues as they were in days gone by.

Democrat.

Eight years ago the democratic banners were emblazoned with the following mottoes: "White men must rule America," "No nigger equality in our," and "White husbands or none."—*Adelphi*.

Our contemporary knows the above to be false and its editor insults the intelligence of its readers when it asks them to believe any such trash.—*Democrat*.

We saw the procession, and can give name of town where meeting was held and the townships sending the delegations. More than that, four out of five of the banners calling for "No nigger equality in our," nigger was spelled with but one g. Old suits of "Blue jeans" labeled "Protect Home Industries." "Blue jeans is good enough for us" were the most appropriate mottoes that they displayed, as but few of them would have felt comfortable in a suit of any other material. A few years previous we visited the camp of about 600 democrats from the same county who were on their way to liberate the confederate prisoners who were confined at Camp Morton. Their emblem was a "butterfly."

When informed by prominent men who were in sympathy with them, but not foolish enough to run their necks in a halter, that the prison guards had been increased by the arrival at Indianapolis of two batteries and three regiments from the Army of the Potomac, they scattered, some for home, and the rest for Canada. Does this insult your intelligence? It should do more. It should bring the blush of shame to your cheek for being the upholder of a party that is composed so largely of those who were traitors and their sympathizers.

There is nothing like candor; and the democratic majority of the House committee on Invalid pensions is quite candid. When it recommends that if any soldier's pension is not sufficient for his support he shall "accept the charity of the local authorities." That is, rather than give him a sufficient pension to support him frugally, let him go to the poor house.—*Blade*.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word "Malaria" was comparatively unknown. Today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our fore fathers in times past. So it is with nervous diseases as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the liver, which in performing its functions, finding it cannot dispose of the bile through the ordinary channels is compelled to pass off through the system, causing nervous trouble, Malaria, Bilious Fever, etc. You who are suffering from this ailment, you will appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

The Reunion.

The tenth annual reunion of the Soldiers and Sailors of Northern Michigan, held at Cheboygan last week was an unqualified success. The citizens of that flourishing city had done all things possible for the comfort of their guests and their acts were fully appreciated. The fair grounds were used for the encampment, and there were comfortable barracks and tents to accommodate the veterans.

About two hundred old soldiers were present and the fraternity of feeling among the boys who wore the blue was never more clearly shown. The first forenoon was given up to visiting and a street parade. After dinner the assembly was sounded, and the exercises opened by prayer by Rev. A. E. Cook, followed by an eloquent address of welcome by Hon. Oscar Adams of Cheboygan, which, in the absence of President Bennett, was responded to by O. Palmer. The exercises were interspersed with music by the martial.

Wednesday morning brought an accession to their numbers, and by nine o'clock fully two thousand people were present, which number was doubled during the day. The responses to the different toasts were loudly applauded as reference was made to the service of the veterans in saving the Union.

Our space forbids extended mention, but we must especially mention the recitation, by a little Miss Todd, of the pathetic poem, "You put no flowers on my Papa's grave," which sent the tears coursing down many brown and bearded cheeks, also two recitations by Master Walter Doore, of Gaylord the son of a veteran, which were excellently rendered. Comrade A. J. Rose paid a glowing tribute to our "Michigan soldiers," citing many of their heroic deeds.

A letter from Judge Kelly, of Alpena, detailing the cause of his absence, was read by Hon. W. S. Humphrey and followed by a brief but stirring speech.

The Roseconon and Cheboygan corner bands, and the West Branch and Indian River martial bands made "music for the million," and all worked with a will especially at the bountiful tables.

Thursday morning a meeting was held on the grounds and West Branch selected as the place for next meeting, and the third Tuesday, Wednesday and Thursday in August 1889 as the time. The following officers were elected:

President—Capt. J. S. Andrews.
Vice President—A. J. Rose.
Quartermaster—J. C. McGowan.
Secretary—J. C. Hanson.

VICE PRESIDENTS:

Otsego—J. Banks.
Crawford—O. Palmer.
Cheboygan—George P. Humphrey.
Mackinaw—J. J. J. Kelly.
Presque Isle—Wm. Kitchen.
Alpena—Judge R. J. Kelly.
Oscoda—S. Richardson.
Roseconon—R. S. Gifford.
Emmett—Dr. Hampton.
Charlevoix—Wm. Mears.
Ogemaw—C. M. Ashford.
Montmorency—Tom Shirkwood.
At nine o'clock the steamer Minnie M. left with a large crowd for Mackinaw Island. They returned in the evening on the Soo City, and Camp Sheridan was deserted and the troops disbanded.

Center Plains and Elsewhere.

Hastings and Hanna have done several jobs of threshing with their new separator, and are giving good satisfaction. They are laid up for a few days on account of one of the ploughs in the horse power giving out, but expect soon to be on deck again.

Wheat and oats are yielding way ahead of the expectations of the most sanguine. H. T. Shaffer had a piece of seed wheat that yielded 22 1/2 bu. per acre; also a piece of mutton amber that yielded 21 bu. per acre; both pieces were sown on clover sod, part of which was turned under in the spring and produced a good crop of corn before the wheat was sown, that looks as if the plains might be made to produce equal to anything in the state, both in quantity as well as quality. I have farmed here for six years and my experience teaches me that all we need is more farmers, when I say farmers I do not mean the kind that build themselves a shanty and clear a little potato patch and then go hunting. No sir! What we want is the man that is going to get there, every day and my word for it, that man is going to succeed.

Fayette P. Richardson and A. M. Odell have protected their buildings with lightning rods. It seems "kinder natural" to hear the gentle voice of the lightning rod agent once more, but we generally get over the fence and go around him.

John A. and Frank E. Love are preparing to sow a large piece of wheat on their farms, on Sec. 20 Center Plains township, and otherwise improving their places. Looks as if they had come to stay.

A RAMBLER.

Birmingham, Ala., went in for the luxuries of a political riot, last night, when rotten eggs and pistols figured prominently. The riot was brought on by an attempt of the republicans to hold a meeting—a proceeding of which the democrats did not approve, and which they were successful in preventing. The civilization of Birmingham does not reach the height of creating opposing opinion.—*New Orleans States*, (Dem.)

The AVANTAGE is feeling badly because a couple of republican soldiers have been removed from the railway mail service. Would like to have our cotemporary tell us how many democratic soldiers were kept in the postal service under republican administrations.—*Democrat*. How could they be removed if they were not appointed? We know of several that are holding on to their positions to which they were appointed by republican administrations. It was the outrage to the service not the men, to which we referred. If their places had been filled by qualified democratic soldiers, which are as scarce all over the country as they are in Crawford county, we would not complain. But the present administration prefers traitors for appointment to the public service. Cleveland found 234 veterans employed about the capital, and their places are filled by 201 ex-confederates. The largest portion of his appointments have been from the South, and when from the North were of a different class.—*He*

appointed to office 137 men who have been convicted of crime. Two of them were murderers, five of them were duelists, seven of them were forgers, three of them were rioters, and a large number were keepers of houses of ill-fame, a number of them had committed frauds on the revenue service, a number of them had been guilty of petty larceny, one of them had been in the work-house for stealing a dog, a number of them had been convicted of robbing mails and post offices, and one of them was appointed to take charge of a post office while yet in jail for having robbed it. That is only a portion of the record. How is your intelligence now?

The Albany Journal's New York Special says that already the democratic state committee has taken a preliminary poll of the state, and are appalled at the result. Not only does the state itself, outside of New York and Kings county, show an enormous republican majority, but in the two cities of New York and Brooklyn the workingmen, who have heretofore been solidly for the democratic ticket, are declaring their intention to vote for Harrison and protection, literally by thousands.—*Blade*.

Free traders think it is too bad that England can't have free entrance into our markets established by American labor, and enterprise. If England wants a few in our church let her pay for it. We built the church.—*Detroit Tribune*.

A Sound Legal Opinion.
E. Bainbridge Munday, Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with Malaria Fever and Jaundice, but was cured by timely use of this medicine. An satisfied Electric Bitters saved his life."
Mr. D. I. Wilcox, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."
This great remedy will ward off, as well as cure all Malaria Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50c. and \$1. at Dr. N. H. TRAYNOR'S.

The AVANTAGE says that it knows of thousands of democrats who went to Canada to keep from serving under the old flag, and it might have added with equal truth that it knew of thousands of republicans who done the same thing.—*Democrat*. We did not know a single one, and it is doubtful if the *Democrat* knew one it could name. But did it ever know of a republican that was tried for treason and condemned to be hung, as Hawley, Milligan and Horsey, of Indiana were? They were leading democrats and the Secretary of State, Dodds, died in jail before he could be brought to trial. They were greatly in favor of education and were engaged in shipping arms into the State, in boxes marked "Sunday School Books." That gave them away. If they had made it "Whisky" they would never have been suspected. How is your intelligence now?
